AGREEMENT TO DEFEND FRANCE IS VINDICATION OF LEAGUE PRINCIPLES

Paris, May 9.—Work on the Austrian peace treaty is nearing completion, it was learned today.

The "Big Four" called in its economic and reparation experts to go over final details that section of the peace.

Aside from dissatisfaction with the apportionment of Mandatories over former German territories, on the part of some of the allies, the German treaty apparently meets with full approval of the allied delegates themselves. The Belgians have filed a protest with the "Big Four" against awarding the British the Mandatory over German East Africa, because of the important part played by Belgium in the conquest of that region.

Unofficial reports have also been circulated that the Italians resent

BERLIN PRESS BITTER OVER PEACE TERMS

Berlin, May 8.—The Berlin press was unanimously bitter today in denunciation of the peace terms, an unofficial outline of which was published.

"Acceptance means poverty, hunger and slavery," said the *Tages Zeitung*. "The terms could not be worse."

"Wilson's fourteen points are invisible, observed the *Tagliche Rundschau*. "The most humiliating point is the demand for the kaiser's surrender."

"The treaty oversteps the blackest expectations," according to the *Tageblatt*. "The delegation must do its utmost to change the terms."

"The entente, who through Wilson, prated of justice and rights of people, is unmasked," declared the *Vorwärts*. "We may be forced to sign through fear of hunger, but we will refuse inwardly. We must trust to the international proletariat to bring real peace."

"Compared with the Brest-Litovsk treaty, the terms are moderate," said the *Radical Freiheit* but several parts are in violation of Wilson's fourteen points."

JOHN D. PAYS MILLION DOLLARS FOR BASEBALL

New York, May 9.—The highest price ever paid for a baseball, was, it is confidently said, paid yesterday when John D. Rockefeller gave \$1,000,000 for a sphere autographed by Christopher Matewson, of the New York Giants at the Victory Loan rally at the Subtreasury.

Several baseballs tutographed by other prominent local ball players brought magnificent sums.

Arthur Fletcher, captain of the ball, received \$500,000 for a ball from the New York Trust company and J. P. Morgan & Co. bought one from Larry Doyle for the same amount.

LABOR PARTY IS OPPOSED TO TREATY

London, May 9.—The independent labor party today made public the following recommendations regarding the German peace treaty:

"We strongly denounce the document as a mis-named peace treaty. The terms violate the armistice and are opposed to every statement of allied aims, exposing the real aim of smashing Germany politically and economically and involving the impoverishment and economic ruin of Europe. The treaty does not end militarism."

SENATOR HARRIS WILL VOTE FOR SUFFRAGE

Paris, May 9.—Senator Harris of Georgia, was reported today to have assured President Wilson that he will vote for the women's suffrage amendment, in case it is brought up at the extra session of congress. The amendment lacked but one vote of carrying at the last session.

He leaves for the east tonight. Gowdy served throughout the war with the 16th regiment, of the Rainy division.

DISABLED MACHINE LANDS.

Chatham, Mass., May 9.—The trans-Atlantic seaplane, NC-4, which became disabled while flying from Rockaway Beach to Halifax, landed at the naval air station here at 5:18 this morning.

OVERLAND PLANT IS CLOSED AS RESULT OF STRIKE

Toledo, May 9.—The Willys-Overland plant is closed today, the result of a fight late yesterday between strikers who walked out last week and men who remained at work.

The company posted a bulletin saying the plant was closed for an indefinite period "because of lack of police protection."

Workers were leaving the plant late yesterday when words passed between them and strike pickets. A rock was thrown and the fight resulted.

None was seriously injured.

Ten thousand men walked out last week when the company announced a 45-hour week. Previously the work had been 45 hours.

GERMANY'S POWER COMPLETELY BROKEN BY PEACE TERMS

New York, May 9.—It is the conqueror's peace.

Germany now knows what was meant when America entered the war, demanding no peace before Germany's unconditional surrender.

In the history of civilization no great nation has ever before been so terribly punished, and yet left alive to bear the punishment for generations to come. The peace reduces Germany to the level of Spain.

If the Germans ever again attain the rank of a first-class power it will be by dint of long years of heart-breaking effort.

Germany will seek revenge as long as the memory of this peace endures. The present power of German militarism is broken, but the sullen, vindictive character of the people remains. It is with this that the western world will have to deal. After such a peace, civilization must prepare for any treachery on the part of Germany to balance the account.

To the west Germany cannot turn for friendship. She must seek for future allies in the east. This she will do.

Germany's one hope of coming back lies in a secret agreement with Russia. There can be no guarantee to civilization of Germany's permanent reformation until the allies take Russia into their ranks.

Left a prey to German conspiracies, the Russian menace would succeed the Hohenzollern, as the result of this war's peace.

UNIFORMS MUST BE PRESENTABLE

Chillicothe, Ohio, May 9.—Enlisted men who are discharged will not be allowed to go to their homes wearing shabby uniforms. A new outfit will be issued if the old one is not presentable. Company commanders at Camp Sherman have been instructed to inspect all men of their commands who are to be discharged in order to insure that they have new uniforms or outfits which have been reconditioned and are as good as new.

The Three Hundred and Twenty-second Artillery, a unit of the Eighty-third division, composed of drafted men from Eastern Ohio and Western Pennsylvania, will arrive in New York May 13 and the military authorities at Camp Sherman were notified to prepare for the arrival of the men. The entire regiment will be sent to Sherman for demobilization. The One Hundred and Eighty-eighth Field Artillery Brigade headquarters, 10 officers and 66 men, will accompany the Three Hundred and Twenty-third which will be the first artillery regiment of the Eighty-third division to be demobilized.

U. S. DESTROYER RACES AGAINST TIME TO AID LOAN DRIVE

U. S. torpedo boat destroyer Crane with Navy Victory Loan flag flying from after truck or mast.

The new U. S. torpedo boat destroyer Crane is speeding through the water from San Diego, Cal., to New York in an effort to reach New York before the Victory Loan drive goes over. The destroyer flies the Navy Victory Loan

pennant. The old cruiser Marblehead started to carry the flag from San Francisco but the loan was outpacing her. She put in at San Diego and transferred the flag to the Crane. The Crane is following the Panama Canal route.

The navy hopes that she will reach New York in time to help the loan over the top by turning over the Navy Loan flag to be auctioned off to Victory bond purchasers in the closing days of the campaign.

FIFTEEN ARE KILLED IN A WIND STORM

Houston, Tex., May 9.—Reports here from the lower Rio Grande Valley declare that at least fifteen persons were killed Wednesday night in one of the worst storms in years in that district.

Near Mission, Tex., six were killed and one seriously injured when a shed was blown down. The dead were reported mostly Mexicans. J. L. Vick, an American, and his two small boys were killed. Mrs. Vick was dangerously injured.

Meager reports said the damage was estimated at \$125,000.

ELEVENTH HOUR DRIVE BEING MADE BY LOAN WORKERS

If Greene county can raise \$100,000 Friday and another \$100,000 on Saturday the Victory loan will go over.

Otherwise it is a failure. Friday morning the county was just \$200,000 short of its quota but in spite of the fact that this is a staggering amount, almost one-third of the entire quota, Chairman H. L. Smith is optimistic of putting the loan across. Dozens of workers throughout the county are "beating the bushes" frantically in an eleventh hour effort to pull the county out of the hole. If they all stay on the job until the last horn blows Saturday night they will win. Chairman Smith is sure of it and is counting on his assistants throughout the county to justify his belief.

Cedarville and Cedarville township went over the top Thursday and the third honor flag, thus far won in the county, has been ordered for that patriotic community which always shoulders its fair share of the burden in every undertaking.

The campaign positively closes Saturday night. If you intend to help for future allies in the east. This she will do.

Germany's one hope of coming back lies in a secret agreement with Russia. There can be no guarantee to civilization of Germany's permanent reformation until the allies take Russia into their ranks.

Left a prey to German conspiracies, the Russian menace would succeed the Hohenzollern, as the result of this war's peace.

GREENE CO. SOLDIER BROTHERS PICTURED IN ROAD MAGAZINE

John and Lawrence Paullin, James-town soldiers, recently returned from overseas, are mentioned in a recent issue of *Macadam Service*, a magazine published in the interest of better roads. They were members of the 112th Supply Train. The article follows:

"This picture shows two stalwart soldier brothers. At the left is Lawrence Paullin. At the right John Paullin. Homeward bound to Greene county. Like the other soldiers lads who called at our office, they saw overseas service with the 112th Supply Train. They stuck together from start to finish. The danger zone had no terrors for them. As motor truck drivers they were often exposed to Hun fire and gas. Back and forth between the Swiss border and the North Sea these fighting lads drove trucks throughout the day and night over 14,000 miles. They say the war would hardly have been won had it not been for the great macadam roads of France, which they favor naming, from now on, 'Victory Roads.'

TEN THOUSAND MORE SOLDIERS ARRIVE

New York, May 9.—Four transports, carrying 10,532 American soldiers coming home from the war, arrived here today.

They were the Mongolia, Great Northern, Santa Cecilia and Kentuckian.

Troops of the 28th division (Pennsylvania); 32nd (Michigan and Wisconsin) and 82nd (Georgia, Alabama, Tennessee) were among the arrivals.

SEAPLANES OFF ON SECOND LEG OF LONG TRIP

Halifax, N. F., May 9.—The NC-3 and NC-1, successful American sea planes in the flight here from Rockaway Beach, N. Y., were there early today on the second leg of their over-seas flight for Trespassay Bay, weather conditions being favorable.

The NC-1 and NC-3 took enough gasoline to carry them to Trespassay Bay immediately upon their arrival here. They were supposed from the Cruiser Baltimore which was waiting for them in the harbor.

Commander Towers, chief of the expedition led his men aboard the Baltimore, where they had dinner and went to their beds. All were very tired. No statement was made by the pilots or navigators of the two boats.

The arrival of the craft was the signal for a great turnout of Halifax residents and a noisy welcome from harbor boats. Whistles on shore and the harbor shrieked and the crowd cheered as the NC-3 leading flashed into view and landed amidst a cloud of spray. She alighted in the harbor mouth of McNab's Island at 7:58 o'clock, nine hours after the start from Rockaway. She rushed along the water at great speed to Eastern Passage, where during the war the United States had an air base.

Ten minutes later the second plane came into view and made the same route to Eastern Bay. Both planes came into the harbor in the face of a strong wind.

COX CALLS ON PARTY LEADERS FOR SUPPORT

Columbus, May 9.—For the first time in the history of Ohio, a governor has called his party adherents in the legislature to put over his plans.

This took place shortly after noon today when Gov. Cox sent word for party leaders to come to his office, and asked that his financial relief plans be carried out.

Cox opened by scoring Republicans for allowing the legislature to be controlled and directed by two or three men living in hotels of Columbus, who have no connection whatever with the law making body by virtue of any authority given by the people."

It is generally admitted that Cox referred to E. M. Fullington, chairman of the Republican state executive committee, and George Clark, chairman of the Republican state advisory committee.

Cox urged the Democrats to present a solid front in the house when the emergency citizen relief bill comes up for passage today. Cox vetoed the measure recently and now the Republicans are passing it again. They intend trying to pass it over his disapproval if he vetoes it again.

The governor asked that support be given his relief plan, which would allow the little cities to issue certificates of indebtedness to pay up their deficits. He contends that the Republican plan would put an additional burden on real estate and discourage home owning.

Cox scored the Fouts highway bill which would allow a two-mill tax levy outside of the Smith law to build roads and claimed that promises to him had been violated by its inclusion.

Relieve Your Indigestion With A Laxative

Dyspeptics know that indigestion is accompanied by constipation, and that until the bowels can be regulated so they will act freely and naturally every day at a stated time, swallowing dyspepsia tablets is of little use.

A great and growing number of sufferers from this trouble find immediate and then permanent relief by the use of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. The laxative herbs act on the bowels and the pepsin and extracts on the digestive tract, forming an exceptionally effective laxative-tonic.

It is a combination that has been found wonderfully helpful in indigestion, constipation, biliousness, headaches, bad breath, belching and gas on the stomach. A small dose is all that is required.

The druggist will refund your money if it fails to do as promised.

Are You Awaiting The Great Crisis?

If So, Do Not Allow the Time to Pass With Nature Unaided.

Women who give nature a helping hand during the period of expectancy find that when the time arrives for baby's coming it is approached and passed with infinitely less pain and danger.

Thousands of women for over half a century have learned that in the time-honored preparation, Mother's Friend, they have a great secret of relaxing pain, readily, a use of which makes it possible for them to go through childbirth without the usual nausea, nervousness, bearing-down and stretching pains, and the thoughts of pain and danger are few and of much less pain and danger.

Mother's Friend penetrates the muscles, rendering them pliant and easily governed by the demands of nature, so they relax gradually, bearing down easily and painlessly.

As the result the crisis is passed with greater ease and in less time, the breasts are kept in good condition and the madame and kept soft and free from blisters.

Write to the Bradfield Regulator Company, Dept. P, Lamar Building, Atlanta, Georgia, for their Mother's Friend Book and obtain a bottle of Mother's Friend from your druggist today and thoroughly fortify yourself for the coming event.

THREE MEMBERS OF FAMILY ARE KILLED BY TRAIN

When an outbound passenger train yesterday hit an automobile at the Winchester Pike crossing of the Toledo and Ohio Central Railroad, four miles southeast of Columbus, it nearly wiped out the entire family of Dr. William E. Shadrach, aged 48, Lancaster dentist, brother of John H. Shadrach of this city.

He was killed outright. A daughter, Loraine, aged 13, died a few minutes after she was picked up by the train crew; another daughter, Helen, aged 10, died at 10:30 last night at Grant hospital, and his wife, Mrs. Glenn Shadrach, aged 35, is at the same hospital with severe injuries.

His view presumably obstructed by rain on the windshield and side curtains of his touring car, Dr. Shadrach, drove his car across the railroad tracks. The train struck the auto broadside, carrying it a quarter of a mile.

When the train crew alighted, the forms of Dr. Shadrach and his little daughters were on the pilot of the locomotive. Mrs. Shadrach lay near the Winchester Pike. She had been thrown 30 feet from where the accident occurred.

The dentist was dead when picked up. Loraine died a few minutes later in the baggage car.

Mrs. Shadrach sustained broken bones in her left arm and leg, her skull probably is fractured and she was hurt internally. Seven hours after the accident she regained consciousness and late last night some hope was entertained that she might recover.

Before starting to Columbus, the Shadrachs had left their daughter, Ruth, aged 2 years, at the home of relatives at Lancaster.

J. H. Shadrach received news of the tragedy, and went to Columbus, Friday morning. Dr. Shadrach has another brother, Frank, and two sisters, Mrs. Kinnison and Mrs. Womeldorf, living in Jackson, and a sister, Mrs. Dan Jenkins, in Middle-town.

DAILY THOUGHT.

Wit is the salt of our conversation, not the food.—Hazlitt.

WORSE THIS SPRING

Owing to Run-down Condition Caused by the War.

Anxiety and worry have a bad effect on the nervous system, and derange the bodily functions, especially digestion and excretion. Who escaped them during the war? They have made nervousness, paleness, lack of vitality worse this Spring.

The very best medicine to take now is Peptiron. It strengthens and tones the nerves. It gives a good color to the lips and cheeks. It is the great vitalizer, giving healthy activity to all the vital organs.

This good medicine, which is a real iron tonic, makes the blood rich in red corpuscles, an abundance of which is indispensable to perfect health. It promptly relieves mental and physical exhaustion, creates an appetite, and promotes sweet, refreshing sleep. Peptiron is in the form of chocolate-coated tablets, and is pleasant to take.

AS A MAN SOWETH SO
SHALL HE REAP.

In strong and unmistakable language Germany has been told "where she gets off." For four long years she played the role of human butcher, reckless marauder and ruthless devastator.

That would not be so bad, had it not been necessary for the balance of the world to rise up in arms to throttle her, and to give the lives of their brave sons in the work. And this brought mourning to thousands upon thousands of homes.

How can God's mercy ever reach so far as to hold guiltless the instigators and perpetrators of this frightful holocaust of human misery? It cannot be.

"Pride goeth before a fall." In the pride of lust for control of the world, this arrogant German nation conceived and carried forth the awful world carnage. Caring for no humanity, she butchered right and left, and devastated as she went.

And to think of the shamefulness of claiming that God was her partner in her fiendish crimes. Did the kaiser believe this, or was he only trying to bolster up public sentiment among the masses. It was disgusting to the world.

But he went too far in his fiendishness in his under sea murders of innocent men, women and children in no way concerned in the war. He aroused a "Little Giant," America, to his final undoing. Little he thought that this nation, far removed from the "entangling alliances of Europe," would take enough interest to interfere.

But he had failed to take into account the high moral character of America. He thought he could murder right and left with impunity and that there were none strong enough to overcome him.

That was his mistake. The "Little Giant" shook herself and said we cannot be struck in the face—in self defense we will strike back.

And behaved a great nation aroused itself. As it were, it sprang to its feet in a day and grasped its sword. In a day it was "terrible as an army with banners." It resented the sneer of the big bully at its unpreparedness. By the millions its young men sprang into ranks. By the million they compassed the three thousand miles of billows and were on the fighting line.

About this time the bully began to take notice that this far off thing, Little America, was not so insignificant as he had thought it. Still he said, "Oh they cannot fight, they have not been drilled—they are no match to my men." But he found out. The despised Americans were a big help to their brave allies in turning the tide that brought the great result of this week at Versailles.

Ah ha. How the wonderful have fallen—the boastful have bitten the dust. But never did an arrogant, high headed fool more deserve it. Is she to get her deserts? No. She never will, unless the great God gives it to her in meting to every one of her brutish cohorts the penalty the Bible allots to them where it says that "the wicked shall be turned into hell, and all the nations that forget God."

TWO U-BOATS.

Just before we entered the war, while we were still supposedly at peace with Germany, a great event was heralded far and wide—a German submarine suddenly appeared in New York harbor.

She was laden with dyestuffs and all sorts of commodities for which Germany had long had a profitable American market. She stayed for a few days and then slipped away, laden with supplies purchased here, and with good American dollars.

"Look!" said an awed world. "See what Germany can do! That's Germany for you! How powerful and resourceful she is!"

Just the other day, unheralded and attracting little attention, another German submarine slipped into New York harbor. She is equipped with

ENTERTAINS CLASS
ON HER BIRTHDAY

Miss Florence Eleanor Smith entertained members of the Senior class of Cedarville high school at dinner Thursday evening at her home in Cedarville. The occasion was the eighteenth anniversary of the hostess' birth.

Dinner was served in three courses at 6 o'clock, and the table was an attractive picture in its decorations of rose and white, the class colors. A crystal basket filled with rose colored tulips centered the table. Narrow pink ribbons led from the dome over the table to tiny rose colored baskets of bon bons at each place to which the place cards were attached.

Miss Helen Townsley of Goshen, a former member of the class, who graduated his year from the Goshen high school, was a guest of honor, and there were covers for: Miss Townsley, Miss Ruth Huston, Miss Alice Lackey, Miss Marjorie Wright, Miss Mary Flanagan, Miss Eloise Davis, the hostess, Messrs. Wilbur Finney, Harvey Rogers, Paul Bryan, Charles Townsley, Earl Collins, Cecil Eu-
bon and Russell Huston.

LET PARENTS VOTE ON IT.
Columbus, May 10—Parents of Columbus high school boys will have an opportunity to help settle the question of military training in local high schools.

Sept. Fullerton plans a referendum in which parents of the 1,500 high school boys who would be eligible for such training will be asked to vote either for or against the proposal.

BARBARA IS OBLIGED TO GO TO
THE MIDNIGHT TRAIN
CHAPTER LXXXIII.

That afternoon after my return home I felt happy at times because of my faith in Mr. Frederick; that he would influence Neil to end his intimacy with Tearle and men of his kind; unhappy at other times when I dwelt upon the fact that it had become a necessity.

"About six o'clock the telephone rang.

"This is Mr. Forbes' office. He wished me to telephone Mrs. Forbes that he would not be at home to dinner."

"Is Mr. Forbes in the office?" I recognized the blonde stenographer's voice.

"No, he went out with Mr. Tearle about half an hour ago."

He can have my shirt now

OVER THERE, somewhere in Germany, I've got a kid brother. He's been in the fight since the beginning and now they've made him a corporal and sent him up to some bridgehead on the Rhine.

I've watched that kid grow up from a baby. I've helped him out of scrapes. I've raised the devil with him for getting fired from school and cussed him out for ducking the lawn-mower job. I've loaned him money I never expected to get back—and never did.

A couple of years ago I came home one day and found the little son-of-a-gun wearing my favorite shirt. We had a family row and I made him take it off.

Yesterday I had a letter from him. It was written with a pencil, over a month ago.

He told me about the fellows he was with and asked about the family. He told me about the work our soldiers are doing along the German border and what a tire-

some job it is now that there's no more fighting. He said he'd be home when his job is over.

And then the little devil asked me if I remembered the day I made him take off my shirt.

Well—

Until I got that letter I had a comfortable sort of a feeling that the War was over—that I had done about all that my patriotic duty called for, that my part of the job was finished.

But that letter woke me up.

It made me realize that a regular American doesn't put his Patriotism on the shelf when the guns stop booming.

If that kid is going to stick to his job until the whistle blows, I'm going to stick to mine.

I'm going to subscribe all I can spare to the Victory Liberty Loan and go without that new suit—I don't really need it, anyhow.

And I'll feel a lot better.

THIS AD IS PATRIOTICALLY CONTRIBUTED TO THE CAUSE OF FINISHING THE JOB BY

THE HOOVEN & ALLISON CO.

"Very well, thank you." Regardless of what Mr. Frederick had told him of Tearle's character and reputation, Neil had gone out with him. It seemed to be such a reckless thing to do. I of course did not realize that it isn't an easy thing to break off business relations at any time; that under certain circumstances it might be almost impossible to accomplish any great change in the personnel of a company quickly. So I dwelt upon the idea that Neil had decided to pay no attention to Mr. Frederick, to me, or to what he had been told others were saying. That he had decided to go along in the same way he had been going—a law unto himself.

I was the more distressed that hesitation. I said aloud: Then: "I won-

der if he is at Blanche Orton's." Just the thought made me so miserable the tears started. "Oh, what shall I do?" I felt that never was anyone so unhappy as I; that never was a woman so anxious and worried. "If I didn't love him so much!" I continued my soliloquy, "if I didn't it wouldn't be so hard to lose faith in him." I wonder if he does care for Blanche Orton, perhaps Mr. Frederick is mistaken about that. "It doesn't seem as if he would go there so much if he wasn't."

Finally I gave up trying to locate him. I ate my dinner, then sat down with a new magazine and tried to read. He might come in any minute. I said to myself, knowing he would not. Of late he had remained out the entire evening and far into the night when he had not dined at home.

"If he doesn't come I will go to the club again?" If Neil had not gone to Mrs. Orton's he might be there now.

"Is Mr. Forbes in the house?" I burst which caused me so much uneasiness. It was the feeling that he would be there. "Will you page him please so that I may be sure. I will hold the wire." It was at Blanche Orton's. I was not at all timid. Even had he been at home I should probably have gone to the telephone. After waiting an unconscionable time a voice said:

"Hello—Mr. Forbes is not in the house." It was the fear that he was with another woman; a fear which amounted almost to a sure knowledge. I hung up, disgusted that I had waited so long. "I might have known it. I shouldn't have cared, I said. After the clock had struck eleven I arose to prepare for my errand. It was strange now in every unhappy moment my thoughts flew to him. Was it because I knew he loved

me? There was no use fooling myself. It was tomorrow—Barbara Angers Neil. Calling him at Blanche Orton's.

Get it fixed in your mind that skin eruptions, Scrofula, Eczema, burning, itching skin, and all skin diseases are due entirely to impure and infected blood. If the trouble was on the outside of the skin, by simply washing and keeping it clean you could obtain relief—not even ointments, lotions, and salves would be necessary. Agree with us in this belief, and your trouble can be relieved—you can be entirely restored to health. S. S. S. is a purely safe remedy that will purify your blood and cause a most decided abatement of your trouble, and finally make you entirely well. Fifty years ago S. S. S. was discovered and given to suffering mankind. During this period it has proven its remarkable curative properties as a blood purifier and tonic, and has relieved thousands of cases of disease, caused by poor or impure blood, and chronic or inherited blood diseases. You can be relieved, but you must take S. S. S. Take it if only pimples appear, for they denote bad blood, and may be followed by the sufferings from torturing skin eruptions. Therefore be sure. "Naturalizes" Bird in Cuckoo Clock.

Cuckoo clocks, once so popular, were for the most part "made in Germany,"

so a jeweler in an Indiana town decided that it was time that the bird in his clock should be "naturalized," says

Popular Mechanics Magazine. When he had finished alterations the bird came forth and whistled "Bob White," like a native American.

JAMESTOWN

Very brief and simple were the funeral services held for the late S. T. Pidgeon—as he had requested—on Friday afternoon, at the United Presbyterian church. The Rev. Frank Dean read the 90th Psalm. Rev. D. D. Dodds, of Xenia, offered prayer, and Rev. W. M. Lorimer made a few appropriate remarks. Charles Reeder and Miss Marian George each rendered a solo, and there was singing by the choir of the church. The pall-bearers were relatives. Thus a good man was laid to rest, after a long and faithful life of service to the Master and his Savior. The floral offerings were a mute testimony of friendship and love.

Mr. Clarence Gerard, of Dayton, was a Sunday guest of Mr. and Mrs. J. H. Perry. Mrs. Gerard and little daughter Jane were weekend visitors at the Perry home.

On Tuesday afternoon Mrs. Jesse Taylor, gave a most delightful reception in her spacious hospitable home, honoring her house guest, Mrs. Hughes Moyer, Frostie Paxson, of Johnstown, Pa. Eighty invitations were issued and almost that number responded in person. The dining room was fragrant with beautiful blossoms. In the halls and rooms throughout were large vases filled with different colors and shades of blooms, which added their beauty to the cozy surroundings. Mrs. Taylor was assisted about the rooms by Mesdames G. R. Bargill, N. N. Hunter, W. W. Johnston, J. W. Benegar and Robert Zimmerman. Delicious refreshments of ices, cake and coffee and dainty confections were served. The favors were sweet peas. Mrs. Moyer was delighted to meet in such a cordial manner her many friends.

On Friday evening the 9th, the Juniors of the high school, will banquet the Seniors, at the Wickersham hotel. The dining room will be decorated with the class colors of both. The Seniors colors are blue and gold and the Juniors old rose and silver. Flags of both classes as well as the American flag, will be employed in the decoration. Miss Virginia Moorman will be toast mistress for the occasion.

Samuel, son of Mr. and Mrs. J. E. Stoner, who was a member of the 322 division, has just returned from Camp Sherman, where he received an honorable discharge. Mr. Stoner saw strenuous service in Italy. He was in the hard drive which defeated the Austrians and he suffered from sea sickness all the way home. He thinks he would not like the Italian food for a steady diet, and now with mother's cooking hopes to soon feel well. His many friends here are glad to greet him. All his months of service were spent in Italy.

Ross, Mr. Stoner's second son, is home on a 10 days' furlough, from the Navy Yard at Boston, where his ship, the United States Salem, is lying. He reports that the thought now of recovering the body of his friend and comrade, Wilbur Thomas, has been abandoned.

FOURTEEN Y. M. C. A. MEN KILLED WHILE SERVING IN FRANCE

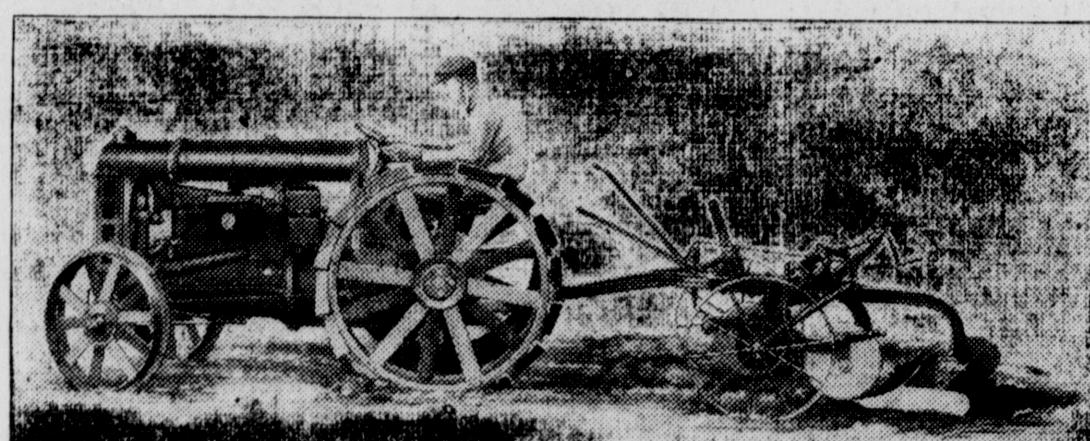

New York, May 9.—In a report made public last night, George F. Perkins, chairman of the finance committee of the war work council of the Y. M. C. A., declared that of the 11,299 workers of the organization sent to France, less than five percent were unsuccessful.

Fourteen of the men he showed were killed and 126 were wounded. Perkins recently returned from France in providing entertainments.

Europe, where he was sent to make an observation of the association's work.

The report covers the work in England, France, Germany and Italy, and does not touch on the large number of secretaries in this country nor in the navy, nor in prison camps.

Perkins declared it never was the policy of the Y. M. C. A. canteens to furnish supplies free to the men, but to sell them at as low cost as possible and to send articles to the men in the front lines where it was possible. Admitting criticism has been directed at the organization for not giving away cigarettes and similar articles, the report says it was the policy to use funds so far as possible in providing entertainments.

Fordsons Will Stand the Gaff

For 1500 hours—almost sixty-one days and nights—a Fordson Motor was run at the Dearborn Factory of Henry Ford & Son, Inc., at the rate of 2000 revolutions per minute, or just twice the normal speed.

The test represented three years of actual work in the hands of the Fordson owner. What was the RESULT?

The wear on any wearing part was so small that it could not be measured with any ordinary measuring instrument.

What does this evidence of

In-Built quality mean to you
Mr. Fordson Buyer?

NEW COUNTRIES BATTLE BOLSHEVIKI

Shaded portion of map shows where the fight to check and stamp out Bolshevism is being waged in the new European countries born of the war.

The Bolshevik leaders seem to be centering their efforts on gaining control of the new nations born since the war's end. Czechoslovakia, Poland, Hungary and the other countries where republics were set up, are swept by Red riots. The Bolsheviks, however, are meeting with resistance. In Finland especially the Red forces are being badly defeated.

FOOD ADMINISTRATION OF UNITED STATES LOCATED AT SARAJEVO

Sarajevo, April 5.—By Mail)—This little Bosnian city, famous as the scene of the murder of Archduke Franz Ferdinand, which was the precursor of the great world war, is now the headquarters of the United States Food Administration and of the American Red Cross, which are extending their activities to every part of the Balkans. American officers, soldiers, doctors and nurses crowd the streets.

Four and a half years of war have made little change in the ancient capital. With the exception of a small district near the Serbian frontier, Bosnia and Herzegovina was not a battleground and there is consequently no destruction of property. Indeed except for the wounded and sick Bosnian soldiers returning from Austria and Germany, and the presence of Allied officers and troops, one would scarcely know the country had ever been at war.

The streets are thronged with people of all nationalities and of all manner of dress. Croatians, Serbs, Austrians, Germans, Turks, Italians, Frenchmen, Britishers and Americans rub elbows with one another. The cafes are always crowded. The cinemas are full at all hours and dancing is ever popular.

The slender minarets of the more than one hundred Turkish mosques, give a very picturesque appearance to the city. Nearly one-half of Sarajevo's 50,000 souls are of the Mohammedan faith.

The Turkish people here really are Slavs who embraced the Mohammedan religion. They are noted for their indolence and dirtiness. The women never work. The Serbians on the other hand, are industrious and tidy.

The people of Bosnia and Herzegovina have great native intelligence. Many speak several languages. The educated classes are students of politics and economics. The word Liberty and Freedom are constantly on their lips. All their hope is centered in President Wilson. He is their apostle.

While there is an abundance of food in the larger cities, some of the villages are suffering severely. There is complete lack of food suitable for children and the sick. There has been an alarming increase in the number of typhus cases, particularly among the poor, many of whom have only one outfit of clothing which they never change or wash until worn out.

The American Red Cross Commission to the Balkans has sent a number of doctors and nurses here to help the local authorities. The United States Food Administration is sending large quantities of flour and fats into the interior regions, where destitution is the worst.

The people and government are profoundly grateful for this help from America. On every hand you hear expressions of admiration and gratitude. It is no exaggeration to say that America stands first in the affections of the people.

Alvah McVey, who resides south of town on the Hillsboro pike, claims the most unique hen in existence, says the Leesburg Citizen. This motherly old "biddy" has adopted a litter of young pigs for her very own. In the day time the mother is separated from her progeny and the foster mother is always on the job to take possession. She watches over the little fellows with a true mother's zeal, hunting up grains of corn and other food and frantically calling to them with clucks that the pigs have apparently learned to accept as a good omen.

The other day Mr. McVey discovered the motherly old fowl doing her best to hover the entire litter, her best to hover the entire litter, the pigs accepting her attentions with amused porcine tolerance.

Has anyone got a hen that will beat this?

Preferred "Motorhouse." In England during the early days of motor vehicles, there was a decided preference for the name "motorhouse" rather than "garage."

The Supreme Test of an Automobile

Many means of testing an automobile have been devised but when it is all said and done there is one SUPREME TEST that really measures the worth of an auto. That test is—

WHAT YOU CAN SELL IT FOR AFTER DRIVING IT A YEAR OR TWO

Buick used cars have always sold for a greater per cent of their original cost than any other car on the market. Several used Buicks have recently sold in Greene county for within a few dollars of their first selling price.

Before buying an automobile be sure and investigate this feature of a Buick. A Buick is like a Victory Bond, you can get your money out of it any time you want it.

MILITARISM IN GERMANY THRIVING ON BOLSHEVISM IT IS ASSERTED

By Frank J. Taylor

(United Press Staff Correspondent)
Berlin, April 24—(By Mail)—Since its birth the German Republic has had to decide between two opposite extremes to maintain itself and keep from being overthrown by the radicals.

The two courses open, as the Ebert-Scheidemann cabinet saw them, were:

1. Bowing to the demands of the proletariat and becoming radical, almost to the extent of communism, or at least extreme socialism.

2. Becoming militaristic and following the methods of the old German government of crushing opposition by force.

More and more it is becoming clear that the cabinet chose the latter course, probably in self-defense, and under the pretext of saving Germany from bolshevism.

What is more serious, both to the Germans and other peoples, is that the German Republic is becoming handy with militarism, and under the cover of "resisting bolshevism" is evidently trying to hide the strength of the Republic's military machine.

Figuring that the new Republic, if it were really pacific, would be willing to make a "show-down" of Germany's military strength to convince the outside world of good intentions, the United Press correspondent asked the War Office for some data.

Finally the War Office sent for the correspondent and an agreeable young captain, explained how weak Germany is at present, militarily. He said Germany could not even resist the Bolsheviks, if the latter chose to rise.

Asked what the actual strength of the German force is, the captain replied that the War Office itself did not know. This ignorance of the War Office he explained by the fact that numerous leaders were organizing new volunteer units. The captain declined to guess the strength of the German forces on the grounds that he did not want the figures published "for fear the Bolsheviks would see how weak the militia is and overthrow it."

Every man in the army is a volunteer, according to the War Office. Berlin is crowded with soldiers scattered over the city, but this is due to the fact, says the War Office that members of the old army regulars who are no longer on active duty, have to be housed. Hence the crowded barracks. The War Office offered no explanation as to why these men were fed and housed, though inactive and the active work of guarding Berlin is done largely by provincial troops.

Enlistment is indefinite in the volunteer units, with the condition that a man can leave the militia upon giving four weeks' notice. Every unit has a band, many of the first rate. Guards with rifles ready are everywhere, and auto trucks armed with machine guns roam about the city in search of trouble. Barber wire barricades are not removed from many streets since the last fighting.

Obey That Impulse

SWEEPING ALL OVER AMERICA today with cyclonic intensity is a movement for the promotion of "A Home of Your Own". Behind it is the universal determination to foster and protect AMERICAN INSTITUTIONS. The war taught Americans many lessons—none more vital than that VICTORY came through the SOLIDITY OF AMERICAN CITIZENSHIP and the foundation of all good citizenship IS THE HOME OF ONE'S OWN.

LOOK AT THE PICTURE and, in a nutshell you can grasp the secret of American success. They are planning, eagerly planning, for possession of that which is the greatest effort of life—The Home of One's Own which stands at the end of every day's labor and beckons us to its bosom.

YOU ARE GOING TO BUILD sometime. Everybody has that impulse which is just as old as life itself. Perhaps you hesitate at the expense, but in all sincerity and candor we say to you that in case you wait, disappointment will be your portion. Building costs are not going down. And as a matter of fact such have not increased in anything like proportion to other commodities which you are buying every day.

COMMON SENSE dictates that YOU OBEY THAT IMPULSE to delay no longer; that you take the plunge NOW; that you go FORWARD, economically as you can, but with one fixed purpose in view—"A HOME OF YOUR VERY OWN." Prosperity is right at hand. Activity, work for everybody, is what is needed now and by making the start, you will serve not only yourself but the NEEDS OF THE NATION in the present emergency.

TO "OBEY THE IMPULSE" is the business thing to do; it is the common sense thing to do; it is the patriotic thing to do; it is the one move that any man can make without possibility of regret.

We stand ready to help you--We offer you service and facilities unequalled in this community. We handle only the best of Lumber, lumber from our own factory direct, to which is added no expense by reason of a middle man. Come and see us. Call us by telephone. We have many suggestions through which you can profit--we're sure to save you money.

NATIONALIZATION IS BRITISH LABOR DEMAND

(By United Press)
London.—(By Mail.)—Nationalization! This is the great cry of British labor, whose consistent and continual demand of shorter hours and increased wage is taxing the strength of the British government to its utmost.

Labor leaders declare it is the only solution of British labor unrest.

And not only do they demand nationalization of all natural monopolies, but they demand an equal share of its management.

To support their demand for participation in the management, they point to the position of the post office workers, who, they declare, are "middle class and care more for the looks of their finger nails and

the whiteness of their cuffs" than the they do about hours and wages.

The above is from a statement made to the United Press by Robert Williams, head of the British Transport Workers' Federation, having a membership of 300,000.

"Post office employees lack morale. They haven't interest in their work because they think they are satisfied," said Williams.

Monesen, however, is fast cutting down this percentage, as the result of an Americanization campaign. A member of each nationality has been appointed by the steel companies and the Department of Labor to make all of them real American citizens.

Friendly rivalry has grown up among the various races as to which will be the first to be 100 per cent American.

WHAT HAVE YOU DONE TO AID YOUR COUNTRY HEADQUARTERS OF AMERICAN FORCES IN ENGLAND TO CLOSE

Every week thousands of American soldiers are coming back from France. Some of them incapacitated, some slightly wounded, some weak from illness, some suffering from shell shock, some weak lunged from having been gassed, every one of them having done his duty in the nation's fight for justice and right.

Some of them escaped unscathed, but nevertheless they took their chance; were there to do whatever was required of them. Every fellow ready.

But what have you done?

These boys went the limit for Uncle Sam. They offered their lives outright. They trained and tramped and marched and braved the U-boat danger in going over. And most of them subscribed for Liberty Bonds before they started.

Have you stay-at-homes come anywhere near equaling their performances?

Have you bought bonds in proportion to the trials they underwent for your protection, the security of your homes, the sanctity of your women folk, the maintenance of your liberties and the perpetuation of the nation?

Uncle Sam asked no such sacrifices from you. He asked only that you lend him your money to meet the war expense. He gave you in exchange his promise to repay every penny you advanced with an interest earning eminently fair.

He didn't appeal to your cupidity with an extraordinary offering of profit. He appealed to your patriotism with the double guarantee of continued peace, liberty and prosperity and the best secured investment on earth.

Were you appreciative?

Or were you ungrateful?

And how much?

If your loyalty has been loitering heretofore it has yet another chance.

The Victory Liberty Loan is here.

Redeem yourself.

"Kismet" and "Mizpah."

Kismet is the Turkish word gismet, derived from the Arabic verb gismat, to divide. Its meaning is fate, or appointed lot, and it is the key word of the fatalism of the Turks and many other orientals. It is useless to strive against Kismet, what has to be will be; therefore take things easy, eat and drink, for tomorrow we die, is the expression of this fatalistic belief. Mizpah is Hebrew, and means a beacon or watch tower. The word occurs first in Genesis 31:49, which see for a poetical significance attributed to it.

VICTORY LOAN IS PUT ACROSS IN GREENE CO.

Thanks to the loyalty and patriotism of the banks the Victory Loan has gone over in old Greene county. This good news was announced Saturday morning by Judge H. L. Smith, chairman of the committee.

Determined that the campaign should not fail in the county Chairman Smith within the last day or two secured the pledges of nine of the banks of Greene county to guarantee to take the bonds left unsold in their respective districts at the close of business Saturday night. The banks which guaranteed to put the loan over are as follows: Commercial & Savings bank, Xenia National, and Citizens National of Xenia, First National of Osborn, Spring Valley National, Bowersville bank, Farmers & Traders bank, of Jamestown, Exchange bank of Cedarville and the Miami Deposit bank of Yellow Springs.

Without this action on the part of the banks the loan would not have gone over in the county. At the close of business Friday night the total subscriptions amounted to \$505,000 or \$180,000 short of the county quota. While a large part of this is expected to be subscribed on Saturday, the closing day of the campaign. Chair-

man Smith knew that he could not count on enough bonds being sold direct to the public on the last day to put the loan over. As a consequence he appealed to the banks and they responded in true patriotic form.

Thus for the fifth time Greene county has responded to the call of the country for money, each one of the five Liberty Loans being put across in splendid fashion.

To Judge H. L. Smith, who has served as chairman in the last four campaigns is due much credit. During each campaign he has given every minute of his time to the work and it has been largely due to his efforts that the county has been able to secure an honor flag in each drive. Much credit is also due Hugh Adams, of Cincinnati, who has served as secretary in the last two or three campaigns in this county.

At noon Saturday five township districts had gone over the top and honor flags have been ordered for them. They are, Yellow Springs and Miami township, Jefferson township, Cedarville and Cedarville township, New Jasper township and Bath township. The last two districts were reported over the top Saturday morning.

St. Louis, May 10.—The American Legion will meet in Minneapolis November 10-12. Minneapolis won the honor of entertaining the world war veterans after a hard fight yesterday with Chicago. Prohibition of light wines and beers was protested in others and demands were made that bolshevistic and I. W. W. journals be suppressed.

GRADUATING CLASS MAKES MERRY AFTER THEIR CLASS PLAY

Fifty members of the graduating class of Central High School made merry at a huge informal party at the home of Miss Mary Julia Whittington on South Detroit street following the second night's production of the class night performance "It Pays to Advertise" at the opera house Friday night.

The class had planned to go to Kill Kare after the show and hold a party but owing to the wet and cold weather this plan was called off. It was decided informally then to go to the home of Miss Whittington where they celebrated the success of the show until an early hour Saturday morning.

Members of the class say that the production went off smoother Friday night than it did Thursday night, the first night performance giving the cast a chance to wear off the rough edges and get the lines better. The result was that the presentation pleased another large audience and was voted as one of the best class plays given here in recent years.

Paul Satterfield, in the interesting comedy role of Mr. Ambrose Peale, was even funnier on the second night than in the Thursday night performance, and his lines never failed to get a laugh from the audience. This lad carried the burden of the comedy part of the play and his easy stage manners and quick wit made him a favorite of the cast. Earl Hartsock, in the leading role, was another lad who performed even better than on the opening night and his part was a great success. The other principal parts taken by Miss Emma Dymond, Miss Hazel Evans, Huber Tullis, Alfred Casad Jack Eavey and Robert Ralls were again exceptionally pleasing to the large audience. An added feature of Friday night's show was the sending of a model airplane the class emblem, down from the balcony, during the singing of the class song.

Miss Jean B. Elwell, of the English Department, is proud of the success of the class, and she deserves much credit for her direction of the play. Miss Elwell was presented with another bouquet of roses following Friday night's performance.

Palmer spoke on the work performed by the boys and gave a history of the first Boy Scout organization organized by Lt. O. Morris now at Camp Sherman.

In the midst of gaily decorated and dazzling colored lights, one hundred and fifty people appeared in the parlors of Emery Cottage last Saturday evening to attend the annual banquet given by the Delta Chapter of the Kappa Alpha Psi of Wilberforce University. The guests came from the community of Chicago, Cincinnati, Cleveland, Dayton, Springfield and Pittsburg. The banquet was pronounced to be the most fashionable event in the history of the institution and the young men of the society are to be congratulated for the manner in which they conducted the event.

Autos were furnished the guests and as they were ushered into the large assembly room they were met by J. M. Bard who gave them a very cordial greeting and presented each with a beautiful printed program with an emblem of the society printed in four colors. The guests spent the first part of the evening in the parlors where they were introduced to the visiting guests and were entertained by music furnished by the famous Parker Orchestra from Columbus. In the southwest corner of the south parlor was located the "Fountain of Youth," hidden from view by palms and flowers and faint colored electric lights. Miss Sunie Preston Steele presided at the "Fountain of Youth," and served punch.

At half past nine o'clock the orchestra played one of their popular marches and the line was formed with President and Mrs. W. S. Scarborough at the head and proceeded to the dining room below where they were again met with gaily decorated tables. Mr. R. A. Braxton acted as the toastmaster and performed his part well. Toasts were delivered by President Scarborough, Dean Gilbert Jones and others. A musical program was rendered while the menu was served, Miss Doris Wells and Mr. Bard singing solos and the Grecian dances by Miss Yvette Jones. The menu was served and consisted of delicious menu and consisted of maitre d'hotel, toast fingers, roast stuffed chicken, giblet gravy, potato balls, buttered peas, hot rolls, butter balls, tomato roses, A. R. A., water thins, ice cream, la Phi Nu Pi, fancy cakes, cafe Noir, mints.

LARGE CROWD IS PRESENT AT SCHOOL COMMENCEMENT

Notwithstanding extremely unfavorable weather, the town hall at Spring Valley was crowded for the exercises attending the eighth grade commencement of the township schools. An excellent program was rendered by the various schools, and the eighth grades of Spring Valley and New Burlington schools each presented clever playlets.

The Spring Valley school called its sketch "Patriotism at Spring Valley," and the subject of the New Burlington play was "Welcoming Home Our Soldiers." Both were original and very entertaining and well presented.

Prof. D. H. Barnes, superintendent of district, gave an address which he called the "Name of America." This shame, he described as the number of illiterates permitted to grow up in this country.

Prof. Barnes presented the certificates of entrance to high school, and announced the four winners of the premiums offered by the Women's Christian Temperance Union to the pupils writing the best essay on probation.

Miss Elizabeth Barnett, eighth grade, was awarded the first prize, \$1; Harold Sollers, eighth grade, received the second prize, 50c, and two seventh grade pupils, Miriam Smith and Margaret Sollers, received prizes of 50c each.

Miss Townsley was a member of the class before she moved to Morrow. The table was beautiful in the class colors. Old rose and white. The favors were old rose baskets filled with old rose and white mints. The evening was spent playing games and enjoying music.

The Junior-Senior banquet was held Friday evening at the home of Miss Lucile Johnson, a member of the junior class.

FOURTH MEMBER OF THE NOOKS FAMILY IS FOUND GUILTY

Just long enough for the jury to retire, elect a foreman and take a rising vote was consumed Friday afternoon in the process of finding Walter Nooks guilty of the crime of shooting Roy Emery with intent to kill.

Nooks is the third of his family found guilty of crime in the same court within a few weeks, and when he receives his sentence from the court next week, will be the fourth of the Nooks name in less than two months to hear from the Greene county courts the penalty they were to pay for their wrong doings.

Martin and Alva Nooks, father and brother of Walter went to the Ohio penitentiary three weeks ago for larceny. Alva was found guilty of the crime by a jury and Martin pleaded guilty, making an effort to free Alva. Both were sentenced by Judge Kyle John, a younger brother, was committed to the Mansfield Reformatory by Judge J. C. Marshall a few weeks previously, because of his connection with the thefts in which the father and brother were concerned.

Leonard Nooks, another brother arrested on a charge of chicken stealing, made a confession fixing the theft upon Walter, who was indicted upon the charge at the last session of the grand jury. This charge is still pending. Walter being tried for the more serious crime. Leonard was not connected up with the theft and was released.

Emery is a neighbor of the Nooks family near Wilberforce and he was shot by Walter Nooks a year and a half ago.

It developed at the trial that Walter and two of his brothers went to the Emery home, to satisfy themselves because of some grievance, and as soon as Emery appeared Walter shot him. Emery procured his shot gun and chased the three off the farm. He created some amusement during his testimony by the vehemence with which he described the attack of the Nooks, and their precipitated fleeing when he pursued them.

Nooks was not prosecuted after his indictment, it being agreed that he should be drafted into the army instead. He went to Camp Sherman, where he was employed about the stables part of the time, in the hospital part of the time, and the rest of the time in going A. W. O. L. He was absent without leave so often that the camp authorities grew tired of sending for him, and he involved himself in further trouble while he was at home.

While attempting to avoid arrest after his brother Leonard implicated him in the theft of chickens he was shot in the arm by Sheriff Funderburg about two weeks ago. The wound was slight and has healed. Nooks was defended by Attorney Sully Jaynes of Springfield. Prosecutor Harry D. Smith, in his argument to the jury, declared that the Nooks family has been a menace to the neighborhood, but that every one of them who violates the law, as well as other notorious wrong doers, will be "sent up the line," as fast as they can be prosecuted and convicted.

Mrs. Ophelia C. Rogers of Jefferson street, was the hostess at a very unusual affair Wednesday, when she assembled the choir of St. John's A. M. E. church and a few visiting guests in compliment to Mrs. Florence Evans Robinson, a bride of recent date. Assisting Mrs. Rogers was her foster daughter Mrs. William Rickman. One of the many entertaining features of the evening was a music contest in which only the members of the choir participated.

Mrs. Robinson, who is soon to leave Xenia for her new residence in Columbus, was forced to respond with a few remarks and she regretted very much her departure from the choir and friends.

It was a very dainty two-course luncheon the guests enjoyed after a program of rare musical and literary interest.

Mrs. Rogers was the recipient of many congratulations upon having planned such a delightful evening.

Annually Mrs. Rogers entertains her choir, thereby keeping perfect harmony among them, but the affair last night will be one long to bring pleasant memories.

Of a Good Tonic Medicine, Nerve Builder and Blood Purifier.

Is greater than ever before.

The nervous strain, worry and anxiety caused by the war.

The debilitating effects of the terrible influenza, grip and pneumonia.

The depletion of the blood by indoor life in Winter.

Have tremendously overdrawn the reserve strength of nearly every man and woman.

This makes the favorite Spring medicine, Hood's Sarsaparilla, more of a necessity now than ever before.

For your impure, exhausted blood, and for that extreme tired feeling sure to come, prepare yourself now.

Today begin to recover your lost strength by taking Hood's Sarsaparilla, the standard Spring medicine and blood purifier, which creates a keen appetite, aids digestion and assimilation. Remember Hood's Pills if you need a mild laxative.

THE UNITED STATES TO BE
BOSS RECONSTRUCTOR
OF EUROPE.

Germany is severely dealt with in the treaty presented at Versailles. Escaping actual dismemberment, Germany, nevertheless, is effaced as one of the great powers of the old world and is placed under a sort of Allied and American guardianship for generations to come.

Many tedious and vexing problems excluded from the treaty of peace at this time are left to the determination of the league of nations, in which the responsibilities and engagements of the United States are enlarged.

The entire summary of the treaty shows how cleverly President Wilson has succeeded in interweaving the league of nations with the entire fabric of the treaty of peace. The whole administration of the peace virtually is left dependent upon the league of nations, and thus the President has defeated—if such was his purpose—the threat of senators absolutely to divorce consideration of the league of nations from the treaty of peace during the ratification process in the upper branch of Congress.

Unquestionably, the most important engagement undertaken by the United States in the treaty is to become the leading member of the reparation commission. That commission is clothed with unlimited powers, and it is the common belief that it will dominate the affairs of Europe, financially, economically and industrially, for at least the next quarter century.

If Germany accepts the treaty, this commission, having its headquarters in Paris, will assume virtual control over Germany. It will handle all of Germany's financial affairs, deciding what proportion of her revenues shall be handed over to the Allies and how this revenue shall be raised. It will supervise bond issues in Germany if necessary. It will determine what Germany needs economically to continue her existence as a nation, and will divert all surplus productions to the general fund to recompense the Allies.

By virtue of its control over Germany and its power to sway both money and materials to various of the Allied countries, the commission will come very close to directing the financial, economic and industrial affairs of all Europe. The powers conferred upon the commission are fairly staggering in their wide-ranging comprehensiveness.

In all this work in Europe the United States is to assume first place. Associates of the United States on the reparations commission will be Great Britain, France, Italy, and Belgium. In some instances Japan and Serbia will be asked to participate.

SOWED THE WIND AND
REAPED THE WHIRL-
WIND.

Measured in the terms of nationalities the verdict of the conference against the conquered is catastrophic. As a world power Germany is extinguished. Limits sharply are placed upon her army and navy, and her frontiers are stripped and left open. Her colonies, small empires in themselves, are prizes distributed among the victors. Economically she is bound in chains, and condemned for a long course of years to exacting labor to make reparation for the frightful damage done to Belgium and France. Her once heroic military figure, he who delighted to call himself the War Lord, is soon to face an international tribunal and plead for his liberty if not his life. Hell, symbolized by helpless weakness before harsh conditions, hedges her about. She has reaped the whirlwind where she sowed the wind in her haughtiness.—Cincinnati Enquirer.

the hesitating manner in which she spoke which made me ask:

"How long ago did he leave?"

"Thank you, he is probably on his way to the station by this time." I hung up the receiver trembling. I had received the information I wanted.

I returned to my place with the rest of the watchers just as Neil dashed up.

"I just got home, Bab! hurried right up here. Have they heard anything?"

"No—I knew you only just got home, Blanche Orton told me you had left only half an hour ago."

"The devil she did—what business had you calling her? I won't have you meddling with me, and my business, and the sooner you understand it the better!" He stalked over to one of the officials leaving me standing alone, the man who so kindly had helped me eyeing me with obvious pity. He had heard what Neil had said.

FORTY YEARS A DRUGGIST He Endorses PERUNA

Read this from Mr. L. A. Richardson
of Marine, Illinois:

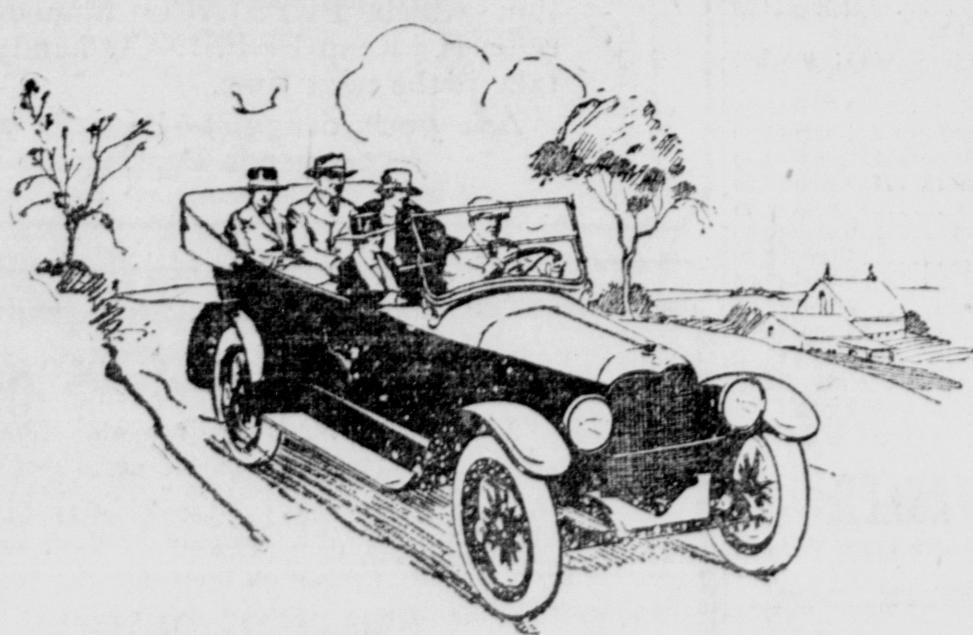

"I have been engaged in the retail drug business here for the past forty years. During this time I have seen many patent medicines come into use, flourish for one or two years and then gradually disappear. There are a few of these remedies that possess enough real merit to insure them long life. Peruna has always been a good seller with us, with a marked increase from year to year. The change in the formula some years back has added to its slight, laudative properties. I have used it as a reliable remedy for constipation and for colds. If taken hourly in tablespoonful doses by adults it will break up the worst cold in two or three days' time. I take pleasure in urging my brother druggists to recommend it for these two ailments."

PAIGE

The Most Beautiful Car in America

Our problem for the next ninety days, at least, is not to sell these five-passenger Paige Linwoods, but to get enough Linwoods to fill the orders that are coming to us. A car that has been bought by twenty thousand American families and by each member of those twenty thousand households is being recommended for its day-in and day-out service, ease of operation, faithful performance and economy of upkeep and operation, doesn't require any selling.

That is the heritage of the New Series Linwood to which we have added a little more smartness, a little more beauty, a little more luxury of motoring.

The Paige Factory is constantly increasing production. We have had special allotments of Linwoods beyond our regular quota. In spite of this, nothing but the immediate placing of your order will guarantee you a reasonable delivery of a Linwood.

Most Effective and Economical.

An expert pharmacist says that the best treatment he knows of for those whose blood is poor, nerves are weak, livers torpid, or whose systems are generally run-down, is: Hood's Sarsaparilla, Peptiron and Hood's Pills as necessary.

The ingredients of these medicines are indicated, he says, in most cases of blood impurities, nervousness, pale-ness, constipation, and are prescribed every day by physicians who have long known the value of the remedy. The Hood's Sarsaparilla, in preparations whose formulas are similar to those of Hood's Sarsaparilla, Peptiron and Hood's Pills, but these already prepared medicines so combine them as to have superlative merit and to be the most effective and economical preparations in which to take them.

Hood's Sarsaparilla, Peptiron and Hood's Pills are products of the C. I. Hood Co., Lowell, Mass., and form their Triple Combination Treatment.

RESERVES OPTIMISTIC OVER NEXT CONTEST

Management of the Xenia Reserves baseball club is optimistic over the battle to be staged at Reserve Park, Sunday, weather conditions being favorable, between the local nine and the Springfield White Sox.

Easy victories in the last two games over teams that were drawn from cities other than Dayton and Springfield, in an effort to please the fans with a variation of clubs, proved that this plan was unsuccessful, and the locals can expect a battle fitting their strength only when they draw clubs from the larger cities.

The White Sox represent one of the strongest outfits playing ball out of the Home City, and last year they topped the city championship. They are out for these honors again this year and hope to increase their stock by a win over the locals.

If the diamond is in good enough shape to play, the contest will be started at 3 o'clock.

Mankind Suspicious.

The flesh of the shark is said to resemble that of the sturgeon—the fish that "goes to the Caesar's dish," but its cannibalistic reputation, firmly fixed in the popular mind, is against it. Man's dread of the gastronomically nutried is only equaled by his curiosity, which after all gets the better of his fears. Truly he was a brave man who first swallowed a raw oyster.
